TERMS OF SALE

1. This is a public auction and mail bid sale, conducted by PONTERIO & ASSOCIATES, INC., licensed California Auction Co. #968 (hereafter "Auctioneer"). Subject to our consent, liberty for bidding by sellers and/or consignors is hereby reserved.

2. A 15% buyers charge will be added to the "hammer price" or winning bid of each lot. This charge will be added to all invoices.

3. Subject to paragraph 8, all material shall be sold to the highest bidder as determined by the Auctioneer. If any dispute arises during or immediately after the sale of a lot, Auctioneer shall have the right to recall the lot and put it up for sale again. In all cases, Auctioneer's decision shall be final. For the bidder's protection, NO "UNLIMITED" or "BUY" BIDS WILL BE ACCEPTED. Bids are to be made in U.S. currency only.

4. Terms of this sale are strictly cash with payment due immediately upon receipt of invoice. Payment by check must be payable in U.S. currency only and drawn on a U.S. Bank. No credit card purchases will be accepted. Title to all lots remains with consignor until paid in full.

5. Floor bidders and mail bidders not known to Auctioneer must furnish satisfactory credit references, sufficiently in advance of the sale to allow for checking, or per the discretion of the Auctioneer, a deposit equal to 25% of their total bids for that session(s) before such bids can be accepted. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded. All bid sheets submitted by mail bidders must be signed. Company bids must be submitted with the signature of a duly authorized agent of such company. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.

6. All bids must be per lot as numbered in this catalogue. No lots will be broken. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. Auctioneer can not be responsible for errors in bidding. Please make certain that you bid on the correct lot and that your bid is the maximum that you are willing to pay.

7. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloger, the current market value of the lot. Lots may, of course, sell for above or below this estimate.

8. Lot(s) may carry a Reserve. A Reserve is a confidential price or bid below which Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for the Auctioneer. In the event that a reserve is known to the Auctioneer prior to the publication of the catalogue, the low pre-sale estimate will equal or exceed the reserve. We reserve the right to withdraw any lot prior to the sale and to open the bidding on any lot at a reasonable price.

9. If Auctioneer, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and Auctioneer shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that refund shall be Auctioneer's sole obligation to Buyer in the event of such cancellation.

10. All items in this catalogue are guaranteed to be genuine unless specifically stated otherwise in the lot description. Claims to the contrary must be made in writing within three days after receipt of the lot. Any returned lot must be intact and in its original unopened holder. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. LATE REMITTANCE FOR PURCHASES CONSTITUTES JUST CAUSE TO ABROGATE ALL RETURN PRIVILEGES FOR ANY REASON.

11. (a) Grading is a subjective description, in the opinion of the cataloger as to the state of preservation, method of strike and overall appearance of a particular coin or lot. The term "Proof" or "Specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution;

(b) Auctioneer does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigrees; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.;

(c) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloger and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind;

(d) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloger's opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.

12. This is not an approval sale. Bidders are expected to promptly purchase all lots awarded to them by the auctioneer. Floor bidders are encouraged to carefully examine all lots which they are interested in purchasing, since NO LOTS MAY BE RETURNED BY FLOOR BUYERS, INCLUDING THOSE LOTS WHERE THE BIDDER IS ACTING AS AGENT FOR ANOTHER PARTY, OR BY MAIL BIDDERS WHO HAVE EXAMINED THE LOT PRIOR TO THE SALE.

13. Mail bids will be accepted from those who can not attend the sale in person. Bids for all lots must be submitted in even dollar amounts, or they will be reduced to the next even dollar amount. Mail (or fax) bids must be received prior to the day of the auction or there will be no guaranty that they will be timely executed. Successful mail bidders will be awarded the lot at nominal 5% or 10% over the second highest mail or floor bid. When identical bids are received by Auctioneer for a lot, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid. A floor bidder must bid higher than the highest mail bidder to be awarded any lot.

14. Auctioneer is an "insider" and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase.

15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid which, in his opinion, is not submitted in "Good Faith", or, as the case dictates, is not supported by satisfactory credit and numismatic references, as Auctioneer, in its sole discretion, shall determine. A bid is also considered not made in "Good Faith" when it is made by an insolvent or irresponsible person, or a person under the age of eighteen. Auctioneer reserves the right to exclude any person it deems in its sole opinion is disruptive to the sale or is otherwise commercially unsuitable. Auctioneer reserves the right to rescind the sale in the event of any nonpayment, breach of warranty, disputed ownership, Auctioneer's clerical error or omission in exercising bids and reserves or otherwise.

16. All photographs in this catalogue are of the actual items being sold.

17. Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice for any lot(s) invoiced to successful bidders. All lots delivered in the state of California are subject to applicable sales tax. Individuals purchasing lots for resale must submit an exemption certificate, signed by the purchaser or his agent and recognized by the state of California, with their current resale certificate number or be subject to the sales tax.

18. Auctioneer reserves the right to require payment in full before delivering any lot to a successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer. All lots sent to foreign countries, including Canada and Mexico, will be billed an additional 1/2 of 1% for insurance. The minimum insurance fee is $5.00. Please send shipping instructions. Normally all lots will be sent via registered mail.

19. In the event a bidder fails to make remittance promptly, auctioneer reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.

20 Auctioneer reserves the right to postpone the auction sale for a reasonable period of time, as the result of any act of war, natural calamity or significant relevant event, which, in the judgement of Auctioneer, reasonably exercised, make it inadvisable to hold the auction.

21. By bidding in this sale, bidder personally guarantees payment; if a corporation is the bidder, the officers and/or principals of the corporation agree to personally guarantee payment. Mail or fax bids must be signed.

22. Auctioneer reserves the right to include its own material in any auction sale. Auctioneer may have direct or indirect interests in auction lots. Auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with Auctioneer. Auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by Auctioneer and may include a bid of a consignor reacquiring their lot.

23. In the event Auctioneer shall, for any reason other than set forth in paragraph 8, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's fee plus interest at 10% per annum if refund is made greater than 60 days after payment. Auctioneer shall have no liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this.

24. Auctioneer shall have a lien against the merchandise purchased by the buyer and any other property of the buyer then held by Auctioneer to secure payment of the auction invoice(s) and any other amounts due Auctioneer from the buyer, with the respect to which Auctioneer shall have all the rights of a secured creditor under Article 9 of the California Uniform Commercial Code.

25. It is unlawful and illegal for Bidders to collude, pool, or agree with another Bidder to pay less than the fair value for lot(s). Bidders in the sale acknowledge that the law provides for substantial penalties in the form of treble damages and attorney's fees and costs for those who violate these provisions.

26. If any dispute arise regarding payment, participation, authenticity, or grading or any other matter pertaining to the sale, and those disputes cannot be resolved, the bidder and/or a participant in the Auction Sale and Auctioneer all agree that the dispute shall be submitted to binding arbitration in accordance with the rules of the Professional Numismatists Guild (PNG) or American Arbitration Association (AAA), per the election of the bidder/participant. The AAA arbitration shall be conducted under the provisions of the California Arbitration Act and venue shall be conducted under the provisions of the California Arbitration Act and venue shall be in San Diego, California. The arbitration costs shall initially be paid equally by the parties. If an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or AAA arbitration. An award granted in arbitration is enforceable in any court. The prevailing party in any dispute shall be entitled to receive its attorneys' fees, expert witness fees, costs and arbitrator's fees. By placing a bid (mail, fax, phone, floor, electronic or otherwise) or by attending or by participating in an auction, a bidder and all participants accept these Terms and Conditions of Sale, and agrees to be bound.

27. Bidding in this sale (by any means) or participating in this sale constitutes acceptance by the bidder or participant of all the forementioned terms and conditions of sale.

INSTRUCTIONS TO NEW MAIL BIDDERS

Bidding by mail permits you to participate in an auction as though you were attending it in person. The procedure is really quite simple. You tell us what you want, and the maximum amount you are willing to pay. We then, as your personal agent, try to buy the items listed for you at the lowest possible price.

LOT	BID
#8	$200
#11	$300
#49	$500
#137	$700

The enclosed mail bid form has two sides for you to fill in. The front side provides all the information we will need to register you as a bidder, execute your bids for you and deliver your lots to you if you are a successful bidder. Please answer all the questions that may apply to you. If you have any special mailing instructions or and/or other instructions, please note them in the "special instructions" area of your bidsheet. **DON'T FORGET TO SIGN YOUR BIDSHEET.**

On the back side are pairs of columns where you may list your bids. After carefully reading the lot description, write down the lot number and the maximum amount you are willing to pay for that lot. Don't forget that a 15% buyer's fee will be added to your actual purchase price if you are the lucky bidder. Continue to list lot numbers and bids for each ofthe lots you are interested in buying.

When we receive your bidsheet, we will record your bids at the amount you have authorized us to bid for you, and we will, in addition, note any lots where an increase is authorized if absolutely needed to win the lot. For example, if the sample bidsheet shown at the right were yours, we would enter your bid on lot #8 as $200. If yours was the highest bid received, you would be the purchaser at $200. (plus 15%), and applicable taxes and shipping charges. If the second highest bid received on the lot was substantially less, your bid would be reduced to a "normal" increment above the second-highest bid, just as it would be if you were present at the sale yourself to execute your own bids. If you have authorized a percentage increase on the front side of your bidsheet and the bidding by others has exceeded your basic bid, we will then, as your personal agent, increase your bid to the minimum amount necessary to obtain the lot for you. The authorized increase will never be used except when your basic bid is exceeded.

Before you mail your bidsheet, do be sure to check it over to make certain you have bid on the correct lot(s) and that your bids are the ones you are both willing and able to pay for. Enjoy the catalog, place bids on everything you would like to buy. If time is running out and you feel your bidsheet may arrive too late to be included, you may call our office between the hours of 9:00 a.m. and 5:00 p.m. Monday through Friday, giving us the lot numbers and amount you will pay for each lot, over the telephone. Please make sure you immediately send in your bidsheet for confirmation. Also, you may FAX your bidsheet to us. As your personal agents we wish you every success.

VIEWING OF LOTS

Lots will be available for viewing by prospective bidders at our office each day, Monday through Friday, by **APPOINTMENT ONLY**, between the hours of 9:00 a.m. and 5:00 p.m., August 14, 2006 through September 5, 2006 only. Additionally, all material will be available for viewing at the Anaheim Coin & Collectibles Expo to be held at the Anaheim Convention Center.

Thursday, September 7, 2006	10:00 a.m. - 6:00 p.m
Friday, September 8, 2006	10:00 a.m. - 5:00 p.m.

The Cap & Ray 8 Reales of Mexico

What can arguably called one of the most important and influential coinage issues of its time. The "Cap & Ray" 8 Reales were produced by 14 different mints over a period of 75 years, between 1823 and 1897. The longevity of this series and its large number of mints are only two of the contributing factors to its complexity and seemingly endless number of varieties. A complete collection containing every date and variety has never been assembled. Attempting to complete this series is quite an undertaking and for all practical purposes not possible.

Offered here is part I of one of the finest and most complete collections of Mexican Republic "Cap & Ray" 8 Reales ever assembled. The collection is nearly complete by mint, date, overdate, assayer, overassayer and majority variety. The collection encompasses an in-depth and extensive study on the coinage of this period. Many new varieties will be catalogued and attributed here for this first time as a result of this collector's extensive research and keen eye for detail. Focused not only on overdates, overassayer and die styles, this collection takes a further approach at cataloging more obscure varieties.

This spectacular collection features many amazing rarities including the Oaxaca mint 1858-AE 8 Reales with a small "A" inside of the "O" mintmark. This coin is extremely rare and presumed to be unique, to our knowledge it has never been offered in a public auction. Also, included in this collection are the 1870-YH Zacatecas 8 Reales which is also believed to be unique and the San Luis Potosi 1827-Sa 8 Reales which is only one of three known.

Other varieties include the 1860-FC and 1864-RO San Luis Potosi 8 Reales. Several rare and interesting errors highlight the collection including perhaps the finest known Mexico City 1824-JM error legend "Hookneck" 8 Reales "REPULICA". The Guadalajara 1287-FS error date 8 Reales and the rare and believed to be unique Durango 1867-CP with a retrograde "C" in the assayer's initials. The collection also features a nice selection of Mexican Republic "Cap & Ray" pattern 8 Reales, including the Guanajuato 1827-WW pattern by William Wyon and the Hermosillo 1882-JA pattern.

This collection also contains the rare 1860-JG siege of Guadalajara 8 Reales with the dot in the loop of the snake's tail. Struck while the city was under siege, this coin was produced from silver requisitioned from local churches and cathedrals.

Part II of this fabulous collection will be offered in our April, 2007 auction and part III will be offered in our September, 2007 auction.

The Durango Mint Pattern 8 Reales

The Republic of Mexico produced "Cap & Ray" 8 Reales at fourteen different mints from 1823-1897. The mint located in Mexico city served as the primary mint for the central government. A regulation was in place that the remaining thirteen mints were required to obtain specific minting equipment such as dies and matrices directly from the Mexico city mint. For this reason, stylistically the coins struck by the various mints were intended to be virtually identical with the exception of mintmarks and assayer's letters however this was not always the case and at times they intended to greatly vary.

For numerous reasons several of the branch mints acquired dies and/or hubs from sources other than the Mexico City mint. European firms such as the "Soho" mint in Birmingham England, among others were able to supply the Mexican branch mints with desperately needed items such as coining dies at a significantly less cost and often with a quick turn around rate than that of the Mexico City mint.

Although the origin of manufacture for certain die styles is known, for several it is not. Dies manufactured from sources other than the Mexico City minty were considered contraband and therefore illegal. For this reason it is unlikely any of the Mexican branch mints kept actual mint records that point to the origin of the manufacture.

The Durango mint pattern 8 Reales of 1840 has been subject to several theories as to where it may have originated. Examining the characteristics of this coin can however help point us in a better direction.

1. The coin has a specific gravity of 8.83 which makes it nickel plated copper rather than base metal silver or German silver as previously though. Normally found with varying degrees of flat strike most likely due to the amount of pressure needed when striking hard metals such as nickel.
2. The coin is struck with a steam press rather than with a screw press and bears a reeded edge rather than a milled edge.

The letters "O.M.C." in place of the assayer's initials could possibly represent "Oeschger Mesdach & Co." also known as "Eschger, Ghesquiere & Co." This firm had offices in France, as well as other countries in Europe and produced coins for various countries. Forrer cites "Flans et pieces de monnaies de nickel, de cuirvre et de bronze fabriques par MM. Oeschger, Mecdach et Cie" in his "Biographical Dictionary of Medallists". The metal, style and method of which this pattern was produced along with the placement of "O.M.C." in the legend would suggest that this is the firm responsible for its manufacture.

8 REALES
OF THE REPUBLIC OF MEXICO

ALAMOS

The city of Alamos was originally settled by ranchers and Spanish missionaries in the early 1600's. It is located in the state of Sonora and was founded in 1681. Shortly after this, the discovery of precious metal ores in the region transformed the city into a mining community. Although gold and other metals were mined, the region mainly yielded high purity silver. The mint in the city of Alamos struck 8 Reales continuously from 1864-1895. Unlike many of the other mints, the production of 8 Reales remained uninterrupted by the striking of Balance Scale Pesos. Although Buttrey states that a pair of Balance Scale Peso matrices were present during an 1876 inventory of the mint, they apparently were never used. The most likely reason for this mint not striking Balance Scale Pesos is that it was under state, not federal jurisdiction. Subsequently the state leased the mint to private individuals and companies during most of its existence. The mint ceased operations and closed in 1895, the mint building later became a federal assay office. The overall quality of the 8 Reales produced at this mint is quite good. Coins are generally well struck and from good quality dies (with a few exceptions). The mint acquired state-of-the-art steam powered minting machinery in the early1870's, from which it produced exceptional quality coins. The majority of 8 Reales produced at this mint in the 1860's and early to mid 1870's were exported to the orient and as a result most known examples of these coins exist with small chopmarks.

REAL DE CATORCE

The city of Real de Catorce is located in rugged mountain terrain in the north of the state of San Luis Potosi. Founding of the city took place in the late 1700's as a result of the discovery of large silver deposits in the region. It is said to have once been second richest source of silver in Mexico, the city's economy was centered around the mining industry. Authorization to establish a mint was granted on February 12, 1861 by Mexican president Benito Juarez and coinage production began in May of 1863. The three story mint building is still in existence and can be visited within the city. It is said that the mint building is haunted by the ghost of Jorge Santos de la Maza (mint owner/lessee, 1861-1869), who is sometimes seen roaming the halls of the Casa de la Moneda while counting his hoard of silver coins. This mint was short lived in comparison to the other Mexican mints. All 8 Reales of this mint bear the date of 1863, although data exists which confirms them being struck up until the year 1869.

CHIHUAHUA

The city of Chihuahua is centrally located in the state of Chihuahua which is the largest of the Mexican states. The name Chihuahua derives from the Nahuati language meaning "dry sandy place", rightfully named for the region's desert climate. Like many of the other Mexican cities containing mints, the surrounding area of Chihuahua contains numerous silver mines. The mint first began striking Republic 8 Reales in 1831 and did so continually until 1871 when they were replaced by the short lived Balance Scale Pesos. In 1873 the production of 8 Reales resumed and continued until the mint closed in 1895. During its first decade of operations the mint produced several interesting die styles unique to Chihuahua. The early die styles were eventually replaced in 1840 by English manufactured dies produced at the Soho mint. This die style remained in use until 1868, it was then replaced by the Mexico city die style which continued until the mint closed in 1895.

CULIACAN

Culiacan is the capital city of the Mexican state of Sinaloa and is one of Mexico's oldest cities. It was originally founded in 1531 by Nuno Beltran de Guzman and used as a base for Spanish exploration of Northern Mexico. The mint was established and began striking coins in 1846. Initially an offshoot of the Guadalupe y Calvo mint, it was originally operated by Compañia Minera de Guadalupe y Calvo. Control of the mint changed several times from government to private hands. It is interesting to note that the only period where unofficial dies were used to strike coins was while the mint was under federal control. The mint struck 8 Reales continually from 1846 to 1870 at which point it began striking Balance Scale Pesos. In 1873 the minting of 8 Reales resumed and continued until 1897, when it was eventually phased out by the Cap & Ray Peso the following year.

DURANGO

Durango is the capital city of the Mexican state of Durango. It was originally founded in 1562, this is the fourth largest of the Mexican states. A mint was first established in this city by royalist forces during Mexico's War for Independence in 1811. Durango became a state in 1823 shortly after Mexico gained its independence. The mint in the capital city began striking coins of the Republic the following year in 1824. It was one of only three mints to strike the early profile eagle or "hookneck" coinage. The mint struck 8 Reales every year from 1824 to 1870 until they were replaced by the Balance Scale Pesos. The production of 8 Reales resumed in 1873 and continued until the mint closed in 1895. The 8 Reales of this series offer collectors a seemingly endless assortment of overdates, overassayers, hidden die marks and varieties.

Beginning in 1848 and continuing into the first die style of 1849, the letters "B", "G", "R", "S" & "Y" are punched into the dies in subtle locations. Through 1847 there was a problem with 8 Reales produced at the Durango mint of debased silver. When a government investigation began, lease holder Carlos Stahlkuecht transferred the lease to Bernardo Georgy. These "hidden" letters were punched into the dies so that Georgy could identify coins produced during his tenure in the event that these coins ever came into question. This was a direct violation of government regulations and as a result, Georgy lost his lease in 1849. We believe this to be the largest selection of these interesting varieties ever to appear in a public auction.

"ROOSWIJK"

371

A Dutch East Indiaman which set sail for Batavia on the 18th of December, 1739 under the command of Captain Daniel Ronzieres. She was accompanied by three other vessels in the Christmas Fleet, the "*Birkenrode*", the "*Beukestijn*" and the "*Vis*". One day after leaving Texel, she struck the treacherous Goodwin Sands off the South East coast of England in a heavy storm. She sank with the loss of all hands. And there the remains of the "*Rooswijk*" and her treasure lay covered in sand for another 265 years. All coins are accompanied by certificates of authenticity.
